

AWFUL CARNAGE  
AT NANKINGFully a Thousand Men, Women  
and Children Slain.

MANCHUS REVEL IN BLOOD

Neither Youth Nor Age Was Taken  
Into Consideration and All Persons  
Wearing Anything White Were Ruth-  
lessly Butchered—Seventy Thousand  
Persons Flee From City and Loot-  
ing and Incendiarism Hold Full  
Sway.

Nanking, Nov. 11.—Nanking is deso-  
late. Fully a thousand of its inhabi-  
tants lie massacred and numerous  
business houses and dwellings have  
been looted and burned.

Seventy thousand persons already  
have fled the city and still others are  
joining the exodus. Along the rail-  
way leading from the city a long,  
snaky line of humanity is trudging,  
seeking safety.

It was the hand of the Manchus that  
wrought the devastation. While the  
republicans were in camp three miles  
away, awaiting ammunition and rein-  
forcements, the Manchus began the  
work of carnage.

Men, women and children were  
slaughtered. Neither youth nor age  
was taken into consideration. White,  
the emblem of the revolution, marked  
its wearers for instant death. Chinese  
with white shoes, a sign of mourning  
among them, or even a white handker-  
chief, were ruthlessly slain. Queer-  
less heads were everywhere to be seen  
severed from bodies of the slain.

There was little fighting between  
the revolutionists and the troops. The  
imperialists are reported to be short  
of ammunition for their big Krupp  
guns and their most capable gunners  
are said to have deserted them.

Desperate Battle Imminent.

The republicans complain that, owing  
to the neutralization of the rail-  
road, they have been unable quickly  
to transport men and guns from  
Shanghai. These are being brought  
by boats and pack mules. A desperate  
battle is expected shortly.

Innocent Chinese, leaving every-  
thing behind them, are fleeing, terror-  
stricken and destitute, to the shelter  
in the fields at the rear of the reform  
forces. The latter, numbering be-  
tween 20,000 and 30,000, are impatient  
to check the slaughter or avenge the  
slain, because of their lack of ammu-  
nition.

The revolutionists made a demon-  
stration, but did little shooting. The  
main body of the reformers remained  
in camp three miles distant from the  
city, awaiting the arrival of ammu-  
nition, which is coming in boats up  
the river and being brought across the  
country on pack horses.

Reinforcements also are coming  
from every direction. They are raw  
and ragged recruits, but are deter-  
mined, and the final battle promises  
to be desperate.

Foreigners Well Treated.

Foreigners are being treated with  
the utmost consideration. When the  
gates were opened the people thronged  
toward the country, each carrying his  
belongings. Afterwards the carnage  
began.

Since the night of Nov. 8, when the  
first attack was made by the revolu-  
tionists, the Tartar general has en-  
deavored to terrorize the inhabitants  
by wholesale executions.

Those whose queues had been cut  
off were beheaded, but, when the or-  
der for a general slaughter was given,  
the whole native city was invaded by  
the Manchus soldiers, who massacred  
men, women and children. Even the  
aged and babes in arms were shown  
no mercy.

A correspondent saw several women  
executed and their children stabbed  
and trampled under foot. The order  
appeared to be that any one wearing  
anything white which suggested the  
white badge worn by the reformers  
must be killed forthwith.

The horror of the massacre beggars  
description. An attempt to estimate  
the number of innocent people and  
non-combatants slain would be futile.  
Fires sprang up everywhere and a  
large section of the native city was  
burned.

## USES HORSEWHIP ON DEPUTY

Austrian Chamber Scene of Outbreak  
Between Two Members.

Vienna, Nov. 11.—At the close of  
the sitting of the chamber of deputies  
Deputy Hummer accused Deputy  
Malk with having inspired a menda-  
cious newspaper article. He said he  
regretted that he could not challenge  
Malk, as he was forbidden by the  
code of honor to fight duels.

Deputy Malk thereupon called Deputy  
Hummer a pickpocket and lashed  
him twice across the face with a horse-  
whip. Other deputies interfered and  
stopped further hostilities.

Missouri Merchant Indicted.

Kansas City, Nov. 11.—J. J. Swof-  
ford, formerly president of the Swof-  
ford Bros. Dry Goods company, was  
indicted by the federal grand jury on  
a charge of using the mails in a  
scheme to defraud. The indictment  
charges that Mr. Swoford sold through  
the mails \$200,000 worth of unendorsed  
stock of his firm.

BILL LIKELY TO BE DRAWN

Democrats and Progressive Republi-  
cans May Join Hands in an Effort to  
Pass Measure Legislating Commerce  
Court Out of Existence—Interstate  
Commission Alleges Tribunal Has  
Arrogated Certain Powers.

Washington, Nov. 11.—Months ago  
it was the announced intention of at  
least one Democratic member of con-  
gress to introduce a bill abolishing  
the commerce court. The action by  
that body in enjoining the interstate  
commerce commission from enforcing  
its decrees reducing freight rates in  
the Western Mountain states is al-  
most sure to precipitate a demand for  
such legislation when congress opens  
in December.

Representative Sims of Tennessee,  
who has had such a bill in mind, un-  
doubtedly represents a large senti-  
ment on the Democratic side of the  
house. The bill also seems assured  
of support from the Republican pro-  
gressives.

The political effect of the action by  
the commerce court is likely to be far-  
reaching. Many politicians regard it  
as the last straw in the fortunes of  
President Taft in the Northwest.

The commerce court is peculiarly  
Mr. Taft's institution. He recommended  
its creation in his first annual mes-  
sage to congress and that body ac-  
ceded to his wishes, although there  
was never hearty support of the plan  
even among the Republicans. They  
recognized, however, that the presi-  
dent was a sort of expert in judicial  
matters and decided to let him try  
out his plan.

A bill was laid before congress,  
drafted by Attorney General Wicker-  
ham and officially endorsed by Presi-  
dent Taft, to create the court of com-  
merce. The administration bill gave  
the railroads access to the court on  
appeal from the interstate commerce  
commission, but denied such access to  
the shippers and consumers. A violent  
attack was made on the bill in con-  
gress and an amendment was forced  
into the law giving shipper and con-  
sumer equal access with the railroads.

Opposed Creation of Court.

It was held by the advocates of ef-  
fective regulation that there was no  
reason for the creation of the court,  
inasmuch as the railroads had ade-  
quate protection against confiscatory  
lowering of rates through appeal to  
the federal supreme court and that  
the proposal to create the court of  
commerce under the terms submitted  
by the administration was obviously a  
one-sided arrangement in the interests  
of the railroads.

When later the question arose as to  
the powers of the new court it was  
held by the regulationists that it was  
law invested the court with no right  
to revise facts, but only to review the  
law in a given case. The court, so it  
was asserted, attempted, however, to  
arrogate to itself the powers of a trial  
court and sent a representative to  
California to take testimony in a case  
that was appealed from the commerce  
commission.

This created intense feeling among  
the rate regulationists and the inter-  
state commerce commission forces.  
The commerce sent an attorney to be  
present at the hearing and his protest  
against the proceedings was sufficient  
to cause the court to recall its repre-  
sentative and for the time to abandon  
the attempt to act as a trial court.

The open charge was also made that  
the president had appointed as judges  
of the new commerce court men whose  
sympathies were more strongly with  
the railroads than with the shippers,  
with Martin A. Knapp as the presi-  
ding judge.

The commerce commission holds  
that the supreme court has decided  
that the commission's findings are  
final as to facts and that the com-  
merce court is exceeding its powers  
by attempting to go into questions of  
fact. The commission announces its  
intention to ask the supreme court to  
hasten a decision which will define  
the powers of the commerce court.

## COAL PRICES EXCESSIVE

General Aleshire Seeks Authority to  
Purchase in Open Market.

Washington, Nov. 11.—Protesting  
that the army is compelled to pay  
exorbitant prices for coal under the  
present system of advertising for bids  
Brigadier General Aleshire, quar-  
termaster general of the army, in his  
annual report, asks that authority be  
given to purchase coal in the open  
market, similar to that now enjoyed  
by the navy department.

Especially, says the report, are high  
prices charged on the Pacific coast  
and for coal used in Alaska and for  
the transports. An instance is cited  
where one transport, upon an emer-  
gency, purchased 400 tons at a saving  
of \$600 on one loading.

STENOGRAPHERS DEST JUDGES

Court Declines to Pass Upon Flavor  
of Chewing Gum.

Chicago, Nov. 11.—United States  
District Judge Carpenter heard argu-  
ments by one chewing gum manufac-  
turer against the other charging im-  
itation of wrappers.

Judge Carpenter had no trouble  
making a ruling as to what should be  
the practice in the future of the com-  
pany complained against, but when it  
was suggested that he rule on the  
flavor of the product of the rival con-  
cerns he cried:

"Not this court. That question could  
be decided only by a jury of twelve  
stenographers."

SCORE HITCHCOCK IN  
WRATHFUL TERMSRailway Mail Clerks Allege Prom-  
ises Were Broken.

St. Paul, Nov. 11.—Postmaster Gen-  
eral Hitchcock and his associates  
were denounced in wrathful terms at  
a special meeting of the railway mail  
clerks on the lines running into the  
Twin Cities. It was charged that the  
officials failed to live up to an agree-  
ment entered into last spring under  
which the clerks consented to go back  
to work after a strike had been called.  
A committee was appointed to see that  
the department fulfills its pledges.

A communication was forwarded to  
the department July 10, speakers as-  
serted, asking that the matter of un-  
dermining the crews on the Chicago  
and Minneapolis and the St. Paul  
and Devils Lake be taken up and no  
reply had been received.

The clerks declared that the gov-  
ernment paid large sums to railroads  
for the fast transportation of mail and  
attempted to make a saving by under-  
manning the crews. They charged  
that by such an arrangement, which  
does not allow any sorting to be done  
on the trains, the mails are delayed  
from two to four hours in final de-  
livery. Mail arriving late in the after-  
noon, they said, is often not delivered  
until the following morning.

## DELAYS ROCK ISLAND STRIKE

Officials' Reply to Shopmen Postpones  
Action for Three Weeks.

Chicago, Nov. 11.—Action toward  
the threatened strike of shop em-  
ployes on the Rock Island system was  
postponed for three weeks, despite the  
practical-breaking off of negotiations  
between company officials and the so-  
called federated committee.

F. W. Tinsman, general manager of  
the Rock Island, sent a final answer  
to J. W. Duff, chairman of the shop-  
men's committee, in which Mr. Tins-  
man said the railroad refused to deal  
with employees as a federation of shop-  
men. Tinsman explained, however,  
that he would be glad to meet any  
committee which came simply as the  
representative of "Rock Island em-  
ployes."

When this information reached Duff  
the committee decided to let the strike  
situation mark time until the annual  
convention of the American Federa-  
tion of Labor, which opens in Atlanta,  
Ga.

## TRAIN HITS TWO LINEMEN

One May Die and Another Has a  
Broken Leg.

Moorhead, Minn., Nov. 11.—George  
Hill, a lineman for the Northwestern  
Telephone company, was badly in-  
jured and he may die and Leon Cant-  
bell had his leg broken when the rig  
they were driving was struck by a  
Northern Pacific train. Both horses  
were killed. The men were unable  
to see the approaching train in the  
blinding snow storm.

American Artist Dies Abroad.

Florence, Italy, Nov. 10.—Howard  
Pyle, the noted American artist and  
author, died here of heart disease. Mr.  
Pyle, whose home was in Wilmington,  
Del., was considered one of the most  
original of American painters and il-  
lustrators. He was fifty-eight years  
old.

TAFT TO COME  
BACK IN 1916?Are His Friends Planning Four  
Years Ahead?

CLEVELAND AS A PRECEDENT.

Champ Clark Still Wants to Annex  
Canada—A Constituent Who Is a  
Mind Reader—Lemons and Prunes in  
Politics—Health Department Im-  
probable.

By ARTHUR W. DUNN.

Washington, Nov. 11.—[Special.]—  
Carrying out the theory that history  
repeats itself, perhaps Mr. Taft expects  
to repeat the performance of Grover  
Cleveland if he should be defeated  
next year. We all remember with  
what a sweep Cleveland came back  
after his defeat for re-election.

In these days of political prophecy  
it is possible that President Taft may  
have something of the same sort in  
mind. His friends assert that even if  
Taft is defeated that his policies will  
be so popular that the people will want  
him four years hence.

But there may be a deal of crowd  
ing in 1916. There is a distinguished  
citizen of Oyster Bay who is scheduled  
by his friends to do a "comeback" act  
in 1916. And also there will be quite  
a crop of aspirants, not forgetting La  
Follette and the grand young man of  
Indiana, Mr. Beveridge.

Do We Want Canada?

Speaker Champ Clark has raised an  
issue in his second declaration about  
the annexation of Canada. He would  
like to have the country vote on it and  
is confident that there would be a big  
majority for annexation. It will be  
pretty hard to have that issue present-  
ed, so there can be an expression of  
opinion, and our desire in that direc-  
tion must remain a mooted question.

But, supposing we wanted to annex  
Canada, how would we go about it?  
The Canadians have expressed a de-  
cided negative on that subject. With  
out the consent of Canada it would  
take more power than we want to ex-  
ercise to secure annexation.

Marvelous Memory.

Senator McCumber received a long  
letter from a North Dakota constitu-  
ent recently in which the man wrote  
about how he had been explaining the  
senator's position as regards his sup-  
port of President Taft. After telling  
what he had quoted the senator as  
saying the constituent added, "I don't  
know whether you said that or not."

Senator McCumber in reply said:  
"I did not say that, but if I had said  
anything that is what I would have  
said. You certainly have a wonderful  
memory when you can recall so ac-  
curately what I would have said if I  
had said anything."

California For Protection.

"Whatever else California may be  
for or against," said Congressman  
Needham, who may be classed as a  
standpatter, "she is for protection.  
Our people may be for any and all the  
isms that are put forth; they may di-  
vide on many vital questions, but  
when the duty on oranges, lemons and  
prunes is attacked they unite and  
stand together. That is our hope in  
the next election. No matter who may  
be nominated, the state will go Repub-  
lican because of the attack made on  
the lemon duty in the last session by  
the Democrats."

Congressman Needham says that the  
next session of the state legislature  
will no doubt provide for a primary  
for the election of delegates to national  
conventions.

Department of Health.

An effort is being made to give new  
life to the department of health by  
placing Dr. Wiley at the head of it. I  
have before said that Taft will not  
bring Wiley into his cabinet. But  
more than that, congress will not pass  
a bill for a department of health.

The impression prevails that such a  
department would be under the domi-  
nation of one school of medicine and  
that all other means of healing, such  
as Christian Science, osteopathy, etc.,  
would be barred from practice. Enough  
opposition has developed to show that  
the bill can never pass.

Riches in Louisiana.

Louisiana is producing half the  
world's sulphur, according to Garnaut  
Agassiz, who was telling Washington  
people about unknown facts regarding  
his state. Louisiana is also soon to  
be the greatest producer of rock salt  
in the world.

There are in the state 7,000,000 acres  
of the richest alluvial land in the  
world, and \$255,000,000 is being spent  
to reclaim swamp lands which have  
heretofore been regarded as valueless.  
"It is the best place for a young man  
in this country," was the comment of  
this southern boomer.

Billy Hughes Versatile.

Congressman Hughes of New Jersey  
knows about the silk business from  
the working point of view, for there  
is where he started. He is a shorthand  
man and was a court reporter. He is  
a lawyer and has won a number of  
cases. But, what is more important,  
he has the confidence of the labor men  
of his district, and it takes a landslide  
to defeat him for congress.

Hughes has shown a capacity for  
intricate tariff subjects during his  
service as a member of the ways and  
means committee.

Highly Probable.

The man who said he was "out on a  
lark" was in reality "out on a swal-  
low."

CATHOLIC JOURNALIST DEAD

Martin I. J. Griffin Passes Away at  
Philadelphia.

Philadelphia, Nov. 11.—Martin I. J.  
Griffin, father of Rev. Martin I. J.  
Griffin, Jr., of St. Paul, died just  
twelve hours after the son had ar-  
rived after a hurried trip from St. Paul  
to be at the bedside of his dying father.

The priests who were in attendance  
at the bedside had withheld giving  
sacraments until the son should ar-  
rive, but as he knelt by his father's  
side the last rites for the dying were  
solemnly intoned.

Martin Ignatius Joseph Griffin, au-  
thor, publisher and editor, was born  
in this city Oct. 23, 1842.

POINTS TO TWO MORE  
VICTIMS OF WOMANPoison Found in Bodies Ex-  
humed at Chicago.

Chicago, Nov. 11.—Poison found in  
the viscera of two more of the ten  
persons who have died mysteriously  
beneath the roof of Mrs. Louise Ver-  
milya made more tangible the sus-  
picions and accusations made against  
the woman by the police.

At the county jail hospital, where  
she lies ill from her attempts to take  
her own life, she was not informed of  
the new evidence which the police will  
bring to bear in charging her with  
murder.

Toxicologist Walter L. Haines' find-  
ing was that arsenic was present in  
large quantities in the viscera of Con-  
ductor Richard T. Smith and of Frank  
Brinkamp, the latter being Mrs. Ver-  
milya's son by a former husband, who  
also died suddenly.

The coroner announced that he  
would ask the state's attorney to re-  
quest an indictment from the grand  
jury charging her with having crim-  
inal knowledge of the causes of the  
deaths of Brinkamp and Smith.

## STATION AGENT IS WAYLAI

Beaten Into Insensibility and Robbed  
of About \$500.

Glenwood, Minn., Nov. 11.—Thomas  
Sagvold, cashier at the Soo station,  
was waylaid on his way downtown,  
knocked unconscious and robbed of  
between \$400 and \$500, the receipts at  
the station for three days. The sta-  
tion is more than a mile from the busi-  
ness part of town.

Sagvold was found lying beside the  
cinder path and taken to his home,  
where he regained consciousness  
enough to tell that his assailant ap-  
peared to be a tall man. No clues  
have yet been found, but it seems cer-  
tain that the holdup was familiar with  
the custom of the cashier to bank his  
receipts every two or three days and  
knew that he had the money with him.

## STAGE GUN WAS LOADED

Actor Killed While Rehearsing Play  
He Had Written.

Elmore, Minn., Nov. 11.—Harry Blair  
was shot and almost instantly killed  
near here while rehearsing a play he  
had written. The actors, all amateurs,  
were going through Indian parts when  
the accident occurred.

Clarence Hesseldehl had been given  
a revolver by Blair and when the time  
came in the play for Hesseldehl to  
shoot Blair he fired, thinking the gun  
was empty. Blair walked across the  
room in which the rehearsal was tak-  
ing place and dropped dead.

Blair, it is supposed, thought he had  
unloaded the weapon before giving it  
to Hesseldehl.

Deneen May Seek Senatorship.

Springfield, Ill., Nov. 11.—Politicians  
here look for an announcement from  
Governor Deneen within the next few  
days that he will be a candidate for  
the senatorship to succeed Shelby M.  
Cullom. The governor himself is si-  
lent, but those who profess to be in  
touch with the situation say that  
while Deneen campaigns for the sen-  
ate State Senator Charles F. Hurburg  
will make an attempt to capture gub-  
ernatorial honors.

COULDN'T AGREE ON ANYTHING

So Los Angeles Judge Discharges First  
Woman Jury.

Los Angeles, Cal., Nov. 11.—Unable  
to agree on anything the first woman  
jury to sit in Los Angeles was dis-  
charged. The case was that of I. H.  
Nagor, accused of having violated the  
speed ordinance. He was arraigned  
in Justice Forbes' court.

After listening patiently for three  
hours to testimony and arguments the  
jury was told to get ready for lunch-  
eon. Twelve different eating places  
were selected by the twelve jurors.  
Then two said they did not want to  
eat at all.

In vain Justice Forbes urged them  
to reach an agreement as to a place  
for luncheon. Finally he ordered them  
locked up again. The justice, too, lost  
his luncheon.

After four and a half hours' delib-  
eration the jurors reported that they  
were unable to agree on a verdict and  
the court ordered them discharged.

## ROBINSON INJURED IN FALL

Aviator's Shoulder Broken in Thirty-

Wichita, Kan., Nov. 11.—Aviator  
Hugh Robinson received a broken  
shoulder in a thirty-foot fall as he was  
starting an exhibition flight. His ma-  
chine was caught in an air eddy be-  
hind a grove of trees.

Robinson discovered he had lost  
control of his biplane and jumped.  
The plane was wrecked.

the legislature referred to as the  
"bellwether" of the election of United  
States Senator William Lorimer, had  
refused to vote for Lorimer for \$25,000,  
but had done so when given \$5,000,

He was thrown twenty feet into a

New Polo Athletic club. Both men

## FAIL IN MARKET ADVANCE

Two Insolvent Stock Exchange Firms  
Were on Bear Side.

New York, Nov. 11.—Two stock ex-  
change failures, resulting primarily  
from the recent advance in the mar-  
ket, were announced. The insolvent  
firms are W. L. Stevens & Co. and  
Ball & Whitcher. Neither firm was  
especially prominent in the market,  
but accounts agree that their recent  
operations were on the bear side.

AWFUL CARNAGE  
AT NANKINGFully a Thousand Men, Women  
and Children Slain.

## MANCHUS REVEL IN BLOOD

Neither Youth Nor Age Was Taken Into Consideration and All Persons Wearing Anything White Were Ruthlessly Butchered—Seventy Thousand Persons Flee From City and Looting and Incendiarism Hold Full Sway.

Nanking, Nov. 11.—Nanking is desolate. Fully a thousand of its inhabitants lie massacred and numerous business houses and dwellings have been looted and burned.

Seventy thousand persons already have fled the city and still others are joining the exodus. Along the railway leading from the city a long, snaky line of humanity is trudging, seeking safety.

It was the hand of the Manchu that wrought the devastation. While the republicans were in camp three miles away, awaiting ammunition and reinforcements, the Manchus began the work of carnage.

Men, women and children were slaughtered. Neither youth nor age was taken into consideration. White, the emblem of the revolution, marked its wearer for instant death. Chinese with white shoes, a sign of mourning among them, or even a white handkerchief, were ruthlessly slain. Queueless heads were everywhere to be seen severed from bodies of the slain.

There was little fighting between the revolutionists and the troops. The imperialists are reported to be short of ammunition for their big Krupp guns and their most capable gunners are said to have deserted them.

## Desperate Battle Imminent.

The republicans complain that, owing to the neutralization of the railroad, they have been unable quickly to transport men and guns from Shanghai. These are being brought by boats and pack mules. A desperate battle is expected shortly.

Innocent Chinese, leaving everything behind them, are fleeing, terror-stricken and destitute, to the shelter in the fields at the rear of the reform forces. The latter, numbering between 20,000 and 30,000, are impotent to check the slaughter or avenge the slain, because of their lack of ammunition.

The revolutionists made a demonstration, but did little shooting. The main body of the reformers remained in camp three miles distant from the city, awaiting the arrival of ammunition, which is coming in boats up the river and being brought across the country on pack horses.

Reinforcements also are coming from every direction. They are raw and ragged recruits, but are determined, and the final battle promises to be desperate.

## Foreigners Well Treated.

Foreigners are being treated with the utmost consideration. When the gates were opened the people thronged toward the country, each carrying his belongings. Afterwards the carnage began.

Since the night of Nov. 8, when the first attack was made by the revolutionists, the Tartar general has endeavored to terrorize the inhabitants by wholesale executions.

Those whose queues had been cut off were beheaded, but, when the order for a general slaughter was given, the whole native city was invaded by the Manchus soldiers, who massacred men, women and children. Even the aged and babes in arms were shown no mercy.

A correspondent saw several women executed and their children stabbed and trampled under foot. The order appeared to be that any one wearing anything white which suggested the white badge worn by the reformers must be killed forthwith.

The horror of the massacre beggars description. An attempt to estimate the number of innocent people and noncombatants slain would be futile. Fires sprang up everywhere and a large section of the native city was burned.

## USES HORSEWHIP ON DEPUTY

Austrian Chamber Scene of Outbreak  
Between Two Members.

Vienna, Nov. 11.—At the close of the sitting of the chamber of deputies Deputy Hummer accused Deputy Malik with having inspired a mendacious newspaper article. He said he regretted that he could not challenge Malik, as he was forbidden by the code of honor to fight duels.

Deputy Malik thereupon called Deputy Hummer a pickpocket and lashed him twice across the face with a horse-whip. Other deputies interfered and stopped further hostilities.

## Missouri Merchant Indicted.

Kansas City, Nov. 11.—J. J. Swoford, formerly president of the Swoford Bros. Dry Goods company, was indicted by the federal grand jury on a charge of using the mails in a scheme to defraud. The indictments charge that Mr. Swoford sold through the mails \$200,000 worth of unendorsed stock of his firm.

## BILL LIKELY TO BE DRAWN

Democrats and Progressive Republicans May Join Hands in an Effort to Pass Measure Legislating Commerce Court Out of Existence—Interstate Commission Alleges Tribunal Has Arrogated Certain Powers.

Washington, Nov. 11.—Months ago it was the announced intention of at least one Democratic member of congress to introduce a bill abolishing the commerce court. The action by that body in enjoining the interstate commerce commission from enforcing its decrees reducing freight rates in the Western Mountain states is almost sure to precipitate a demand for such legislation when congress opens in December.

Representative Sims of Tennessee, who has had such a bill in mind, undoubtedly represents a large sentiment on the Democratic side of the house. The bill also seems assured of support from the Republican progressives.

The political effect of the action by the commerce court is likely to be far-reaching. Many politicians regard it as the last straw in the fortunes of President Taft in the Northwest.

The commerce court is peculiarly Mr. Taft's institution. He recommended its creation in his first annual message to congress and that body acceded to his wishes, although there was never hearty support of the plan even among the Republicans. They recognized, however, that the president was a sort of expert in judicial matters and decided to let him try out his plan.

A bill was laid before congress, drafted by Attorney General Wickersham and officially endorsed by President Taft, to create the court of commerce. The administration bill gave the railroads access to the court on appeal from the interstate commerce commission, but denied such access to the shippers and consumers. A violent attack was made on the bill in congress and an amendment was forced into the law giving shipper and consumer equal access with the railroads.

Opposed Creation of Court.

It was held by the advocates of effective regulation that there was no reason for the creation of the court, inasmuch as the railroads had adequate protection against confiscatory lowering of rates through appeal to the federal supreme court and that the proposal to create the court of commerce under the terms submitted by the administration was obviously a one-sided arrangement in the interests of the railroads.

When later the question arose as to the powers of the new court it was held by the regulationists that the law invested the court with no right to revise facts, but only to review the law in a given case. The court, so it was asserted, attempted, however, to arrogate to itself the powers of a trial court and sent a representative to California to take testimony in a case that was appealed from the commerce commission.

This created intense feeling among the rate regulationists and the interstate commerce commission forces. The commission sent an attorney to be present at the hearing and his protest against the proceedings was sufficient to cause the court to recall its representative and for the time to abandon the attempt to act as a trial court.

The open charge was also made that the president had appointed as judges of the new commerce court men whose sympathies were more strongly with the railroads than with the shippers, with Martin A. Knapp as the presiding judge.

The commerce commission holds that the supreme court has decided that the commission's findings are final as to facts and that the commerce court is exceeding its powers by attempting to go into questions of fact. The commission announces its intention to ask the supreme court to hasten a decision which will define the powers of the commerce court.

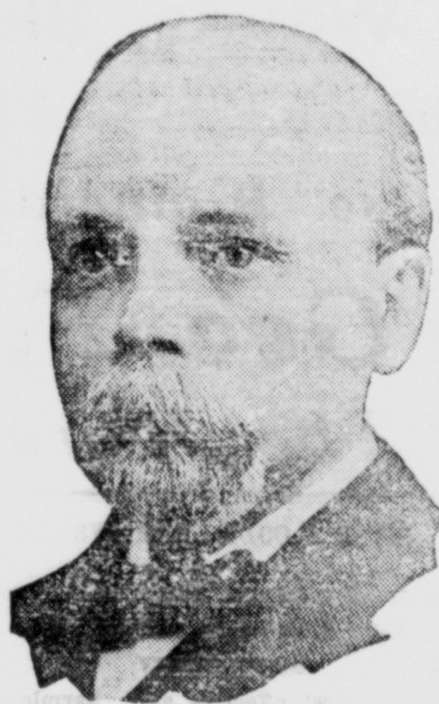

## COAL PRICES EXCESSIVE

General Alshieir Seeks Authority to  
Purchase in Open Market.

Washington, Nov. 11.—Protesting that the army is compelled to pay exorbitant prices for coal under the present system of advertising for bids Brigadier General Alshieir, quartermaster general of the army, in his annual report, asks that authority be given to purchase coal in the open market, similar to that now enjoyed by the navy department.

Especially, says the report, are high prices charged on the Pacific coast and for coal used in Alaska and for the transports. An instance is cited where one transport, upon an emergency, purchased 400 tons at a saving of \$660 on one loading.

## STENOGRAPHERS DEST JUDGES

Court Declines to Pass Upon Flavor  
of Chewing Gum.

Chicago, Nov. 11.—United States District Judge Carpenter heard arguments by one chewing gum manufacturer against the other charging limitation of wrappers.

Judge Carpenter had no trouble making a ruling as to what should be the practice in the future of the company complained against, but when it was suggested that he rule on the flavor of the product of the rival concerns he cried:

"Not this court. That question could be decided only by a jury of twelve stenographers."

SCORE HITCHCOCK IN  
WRATHFUL TERMSRailway Mail Clerks Allege Prom-  
ises Were Broken.

St. Paul, Nov. 11.—Postmaster General Hitchcock and his associates were denounced in wrathful terms at a special meeting of the railway mail clerks on the lines running into the Twin Cities. It was charged that the officials failed to live up to an agreement entered into last spring under which the clerks consented to go back to work after a strike had been called. A committee was appointed to see that the department fulfills its pledges.

A communication was forwarded to the department July 10, speakers asserted, asking that the matter of undermining the crews on the Chicago and Minneapolis and the St. Paul and Devils Lake runs be taken up and no reply had been received.

The clerks declared that the government paid large sums to railroads for the fast transportation of mail and attempted to make a saving by undermining the crews. They charged that by such an arrangement, which does not allow any sorting to be done on the trains, the mails are delayed from two to four hours in final delivery. Mail arriving late in the afternoon, they said, is often not delivered until the following morning.

## DELAYS ROCK ISLAND STRIKE

Officials' Reply to Shopmen Postpones  
Action for Three Weeks.

Chicago, Nov. 11.—Action toward the threatened strike of shop employees on the Rock Island system was postponed for three weeks, despite the practical-breaking off of negotiations between company officials and the so-called federated committee.

F. W. Tinsman, general manager of the Rock Island, sent a final answer to J. W. Huff, chairman of the shopmen's committee, in which Mr. Tinsman said the railroad refused to deal with employees as a federation of shopmen. Tinsman explained, however, that he would be glad to meet any committee which came simply as the representative of "Rock Island employees."

When this information reached Huff the committee decided to let the strike situation mark time until the annual convention of the American Federation of Labor, which opens in Atlanta, Ga.

## TRAIN HITS TWO LINEMEN

Moorhead, Minn., Nov. 11.—George Hill, a lineman for the Northwestern Telephone company, was badly injured and he may die and Leon Campbell had his leg broken when the rig they were driving was struck by a Northern Pacific train. Both horses were killed. The men were unable to see the approaching train in the blinding snow storm.

## American Artist Dies Abroad.

TAFT TO COME  
BACK IN 1916?Are His Friends Planning Four  
Years Ahead?

## CLEVELAND AS A PRECEDENT.

Champ Clark Still Wants to Annex Canada—A Constituent Who Is a Mind Reader—Lemons and Prunes in Politics—Health Department Improbable.

By ARTHUR W. DUNN.

Washington, Nov. 11.—[Special.]—Carrying out the theory that history repeats itself, perhaps Mr. Taft expects to repeat the performance of Grover Cleveland if he should be defeated next year. We all remember with what a sweep Cleveland came back after his defeat for re-election.

In these days of political prophecy it is possible that President Taft may have something of the same sort in mind. His friends assert that even if Taft is defeated that his policies will be so popular that the people will want him four years hence.

But there may be a deal of crowding in 1916. There is a distinguished citizen of Oyster Bay who is scheduled by his friends to do a "comeback" act in 1916. And also there will be quite a crop of aspirants, not forgetting La Follette and the grand young man of Indiana, Mr. Beveridge.

## Do We Want Canada?

Speaker Champ Clark has raised an issue in his second declaration about the annexation of Canada. He would like to have the country vote on it and is confident that there would be a big majority for annexation. It will be pretty hard to have that issue presented, so there can be an expression of opinion, and our desire in that direction must remain a mooted question.

But, supposing we wanted to annex Canada, how would we go about it? The Canadians have expressed a decided negative on that subject. With out the consent of Canada it would take more power than we want to exercise to secure annexation.

## Marvelous Memory.

Senator McCumber received a long letter from a North Dakota constituent recently in which the man wrote about how he had been explaining the senator's position as regards his support of President Taft. After telling what he had quoted the senator as saying the constituent added, "I don't know whether you said that or not."

Senator McCumber in reply said: "I did not say that, but if I had said anything that is what I would have said. You certainly have a wonderful memory when you can recall so accurately what I would have said if I had said anything."

## California For Protection.

"Whatever else California may be for or against," said Congressman Needham, who may be classed as a standpatter, "she is for protection. Our people may be for any and all the fads that are put forth; they may divide on many vital questions, but when the duty on oranges, lemons and prunes is attacked they unite and stand together. That is our hope in the next election. No matter who may be nominated, the state will go Republican because of the attack made on the lemon duty in the last session by the Democrats."

Congressman Needham says that the next session of the state legislature will no doubt provide for a primary for the election of delegates to national conventions.

## Department of Health.

An effort is being made to give new life to the department of health by placing Dr. Wiley at the head of it. I have before said that Taft will not bring Wiley into his cabinet. But, more than that, congress will not pass a bill for a department of health.

The impression prevails that such a department would be under the domination of one school of medicine and that all other means of healing, such as Christian Science, osteopathy, etc., would be barred from practice. Enough opposition has developed to show that the bill can never pass.

## Riches in Louisiana.

Louisiana is producing half the world's sulphur, according to Garnatt Agassiz, who was telling Washington people about unknown facts regarding his state. Louisiana is also soon to be the greatest producer of rock salt in the world.

There are in the state 7,000,000 acres of the richest alluvial land in the world, and \$265,000,000 is being spent to reclaim swamp lands which have heretofore been regarded as valueless. "It is the best place for a young man in this country," was the comment of this southern boomer.

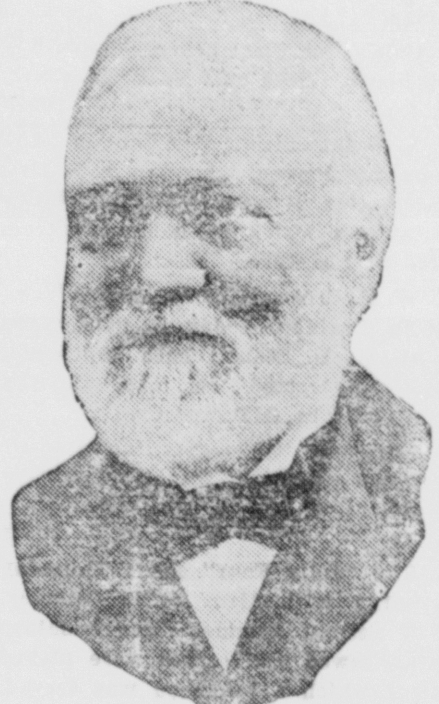

## Billy Hughes Versatile.

Congressman Hughes of New Jersey knows about the silk business from the working point of view, for there is where he started. He is a shorthand man and was a court reporter. He is a lawyer and has won a number of cases. But, what is more important, he has the confidence of the labor men of his district, and it takes a landslide to defeat him for congress.

## Highly Probable.

The man who said he was "out on a lark" was in reality "out on a swallow."

## CATHOLIC JOURNALIST DEAD

Martin I. J. Griffin Passes Away at  
Philadelphia.

Philadelphia, Nov. 11.—Martin I. J. Griffin, father of Rev. Martin I. J. Griffin, Jr., of St. Paul, died just twelve hours after the son had arrived after a hurried trip from St. Paul to be at the bedside of his dying father.

The priests who were in attendance at the bedside had withheld giving sacraments until the son should arrive, but as he knelt by his father's side the last rites for the dying were solemnly intoned.

Martin Ignatius Joseph Griffin, author, publisher and editor, was born in this city Oct. 23, 1842.

POINTS TO TWO MORE  
VICTIMS OF WOMANPoison Found in Bodies Ex-  
humed at Chicago.

Chicago, Nov. 11.—Poison found in the viscera of two more of the ten persons who have died mysteriously beneath the roof of Mrs. Louise Vermilya made more tangible the suspicions and accusations made against the woman by the police.

At the county jail hospital, where she lies ill from her attempts to take her own life, she was not informed of the new evidence which the police will bring to bear in charging her with murder.

Toxicologist Walter L. Haines' finding was that arsenic was present in large quantities in the viscera of Conductor Richard T. Smith and of Frank Brinkamp, the latter being Mrs. Vermilya's son by a former husband, who also died suddenly.

The coroner announced that he would ask the state's attorney to request an indictment from the grand jury charging her with having criminal knowledge of the causes of the deaths of Brinkamp and Smith.

## STATION AGENT IS WAYLAI

Beaten Into Insensibility and Robbed  
of About \$500.

Glenwood, Minn., Nov. 11.—Thomas Sagvold, cashier at the Soo station, was waylaid on his way downtown, knocked unconscious and robbed of between \$400 and \$500, the receipts at the station for three days. The station is more than a mile from the business part of town.

Sagvold was found lying beside the cinder path and taken to his home, where he regained consciousness enough to tell that his assailant appeared to be a tall man. No clues have yet been found, but it seems certain that the holdup was familiar with the custom of the cashier to bank his receipts every two or three days and knew that he had the money with him.

## STAGE GUN WAS LOADED

Actor Killed While Rehearsing Play  
He Had Written.

Elmore, Minn., Nov. 11.—Harry Blair was shot and almost instantly killed near here while rehearsing a play he had written. The actors, all amateurs, were going through Indian parts when the accident occurred.

Clarence Hesseldehl had been given a revolver by Blair and when the time came in the play for Hesseldehl to shoot Blair he fired, thinking the gun was empty. Blair walked across the room in which the rehearsal was taking place and dropped dead.

Blair, it is supposed, thought he had unloaded the weapon before giving it to Hesseldehl.

## Deneen May Seek Senatorship.

Springfield, Ill., Nov. 11.—Politicians here look for an announcement from Governor Deneen within the next few days that he will be a candidate for the senatorship to succeed Shelby M. Cullom. The governor himself is silent, but those who profess to be in touch with the situation say that while Deneen campaigns for the senate State Senator Charles F. Hurburg will make an attempt to capture gubernatorial honors.

## COULDN'T AGREE ON ANYTHING

So Los Angeles Judge Discharges First  
Woman Jury.

Los Angeles, Cal., Nov. 11.—Unable to agree on anything the first woman jury to sit in Los Angeles was discharged. The case was that of I. H. Nagor, accused of having violated the speed ordinance. He was arraigned in Justice Forbes' court.

After listening patiently for three hours to testimony and arguments the jury was told to get ready for luncheon. Twelve different eating places were selected by the twelve jurors. Then two said they did not want to eat at all.

In vain Justice Forbes urged them to reach an agreement as to a place for luncheon. Finally he ordered them locked up again. The justice, too, lost his luncheon.

After four and a half hours' deliberation the jurors reported that they were unable to agree on a verdict and the court ordered them discharged.

New York, Nov. 11.—Two stock exchange failures, resulting primarily from the recent advance in the market, were announced. The insolvent firms are W. L. Stevens & Co. and Ball & Whicher. Neither firm was especially prominent in the market, but accounts agree that their recent operations were on the bear side.

Andrew Carnegie Sets Aside  
Twenty-five Millions.

## PLANS TO EDUCATE PEOPLE

Corporation Organizes Under Charter Granted by New York Legislature to Promote Advancement and Diffusion of Knowledge and Understanding Among the Citizens of the United States.

New York, Nov. 11.—Andrew Carnegie announced he had given \$25,000,000 to the Carnegie Corporation of New York, organized here under a charter granted by the New York legislature last June, "to promote the advancement and diffusion of knowledge and understanding among the people of the United States."

In bestowing this gift upon the corporation, organized especially to receive it and apply its income to the purpose indicated, Mr. Carnegie, in a statement given out at his home in Fifth avenue, said he intended to leave with the corporate body the work of founding and aiding libraries and educational institutions that he as an individual has carried on for many years. The statement follows: "The purposes of the Carnegie corporation, as stated in the charter, are as follows:

"Section 1. Andrew Carnegie, Elihu Root, Henry S. Pritchett, William N. Frew, Robert S. Woodward, Charles L. Taylor, Robert A. Franks, James Bertram and their successors are hereby constituted a body corporate by the name of Carnegie Corporation of New York, for the purpose of receiving and maintaining a fund or funds and applying the income thereof to promote the advancement and diffusion of knowledge and understanding among the people of the United States by aiding technical schools, institutions of higher learning, libraries, scientific research, hero funds, useful publications and by such other agencies and means as shall from time to time be found appropriate therefor.

"The incorporators met at Mr. Carnegie's house Friday afternoon, Nov. 10, 1911, accepted the charter, adopted the constitution and bylaws and elected the following officers:

"President, Andrew Carnegie; vice president, Elihu Root; treasurer, Robert A. Franks; secretary, James Bertram.

"Mr. Carnegie transferred to the corporation, for its corporate purposes, \$25,000,000 of par value first mortgage gold bonds of the United States Steel corporation.

Mr. Carnegie's donation of \$25,000,000 for the Carnegie corporation increases the total of his gifts for various philanthropic purposes, according to the best estimates, to far beyond the \$200,000,000 mark. His library gifts alone made a girdle of monuments around the world to a man who some sixty years ago began his industrial career as bobbin boy in a cotton factory.

Denver, Nov. 11.—To distribute \$1,500,000 where it will be most effective is the work confronting the board of home missions and church extension of the Methodist Episcopal church, which met here. Discussion of industrial conditions in the United States will consume part of the six-day meeting.

Among the speakers at the opening session were Rev. Mr. Herben, editor of the Epworth Herald; Rev. J. M. Buckley, editor of the New York Christian Advocate; Rev. W. V. Kelley, editor of the Methodist Review, and P. K. Carroll, director of the recent church census taken by the United States government.

John Hurley, who travels for an oil house, was badly injured in the wreck near Moorhead last week. Jack, as he is familiarly known, was blown out of the passenger car when the gas tank exploded as a result of the wreck. His face was badly cut and he was considerably bruised. Charles W. Gustafson missed the train that morning and so luckily escaped probable death or injury.

Tickets to the "Crow Wing County Fair" at the Brainerd opera house Friday and Saturday, November 17 and 18 are selling rapidly. All who desire may exchange their tickets at the opera house on Wednesday, November 15, for reserved seats. The choruses are rehearsing diligently every afternoon and evening, except Sunday and a finished production of the play is certain to greet the audiences. Miss B. Eleanor McCall is instructing the cast and choruses and is meeting with good success.

**DRIVES A COLD FROM SYSTEM**  
**Most Effective and Harmless Way to Cure Severe Cold and End all Grippe Misery**  
The most effective and harmless way to cure the Grippe or break a severe cold, in the head, chest, back, stomach or limbs, is a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.  
You will distinctly feel the cold breaking and all gripe symptoms going after the very first dose. It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, soreness, stiffness and rheumatic aching.  
Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.  
After three years' research we have conclusively demonstrated that quinine is not effective in the treatment of colds or gripe.

**DANGER IN DELAY**  
**Kidney Diseases are too Dangerous for Brainerd People to Neglect**  
The great danger of kidney troubles is that they get firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, and Bright's disease, follow as the kidneys get worse. Don't neglect your kidneys. Help the kidneys with the reliable and safe remedy, Doan's Kidney Pills, which has cured people right here in Brainerd.  
Mrs. Hattie Wandrie, Crosby, Minn., says: "For the past two or three years I suffered a great deal from pains through the small of my back and sides. I was also subject to headaches and my whole system seemed to be disordered. The kidney secretions were irregular in passage and caused me much annoyance. I finally procured a supply of Doan's Kidney Pills and in a short time after beginning their use, I felt better in every way. Doan's Kidney Pills have my highest endorsement."  
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, sole agents for the United States. Remember the name—Doan's—and take no other.

**\$3.50 RECIPE FREE, FOR WEAK KIDNEYS**

**Relieves Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.**

**Stops Pain in the Bladder, Kidneys and the Back Also**

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forehead and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness, spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?  
I have a recipe for these troubles that you can depend on, and if you want to make a Quick Recovery, you ought to write and get a copy of it. Many a doctor would charge you \$3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K33 Luck Building Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power.  
It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy Free—you can use it and cure yourself at home.

**The Famous Rayo Lamp**

The best part of the day is the evening, when the whole family is gathered together around the lamp.  
The old days of the smoky fireplace and flickering candle go on forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp.  
There are to-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes.  
Other lamps cost more, but you cannot get a better light than the low-priced Rayo gives. It has become so popular we may almost call it "the official lamp of the American family."  
The Rayo is made of solid brass, with handsome nickel finish—an ornament anywhere.  
Ask your dealer for a Rayo lamp, or write for descriptive circular to any agency of the Standard Oil Company (Incorporated)

**RALSTON "Crescos" are storm proof**

It's not usual for Ralston Crescos to wear two seasons. We recommend them to you knowing that you will get a great deal more in the way of service than you pay for. They are made of French Calf Skin, waterproof treated by a secret process, and the soles are also waterproof.  
In your opinion they're the most sensible shoes for Winter wear ever made, combining style with an unusual degree of service and comfort. We show them in black and tan. As each is equally good, it is merely a question of which color best pleases you. \$4.00—an unusual value.

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forehead and the back-of-the-head aches; the stitches and pains in the back; the growing muscle weakness, spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency?

I have a recipe for these troubles that you can depend on, and if you want to make a Quick Recovery, you ought to write and get a copy of it. Many a doctor would charge you \$3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K53 Luck Building Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power.

It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy Free—you can use it and cure yourself at home.

The best part of the day is the evening, when the whole family is gathered together around the lamp.

The old days of the smoky fireplace and flickering candle, are gone forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp.

There are to-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes.

Other lamps cost more, but you cannot get a better light than the low-priced Rayo gives. It has become so popular we may almost call it "the official lamp of the American family."

The Rayo is made of solid brass, with handsome nickel finish—an ornament anywhere.

## CUYUNA RANGE MINING NEWS

South Range is Attracting the Attention of Mining Men, Investors and Exploration Companies

### CUYUNA NORTHERN PROGRESS

I. W. Topping, of St. Paul, and Senator Washburne, of Minneapolis, Lease Ore Lands

Exploration work and railway building on the south range of the Cuyuna iron range engrosses the attention of investors, mining men and others.

Guthrie & Co., of St. Paul, who have charge of the construction of the five mile spur which the Cuyuna Northern railway is putting in from Deerwood south to the section thirty nine are meeting with no obstacles and will have the line completed before the middle of December. Grading camps have been established at each end of the route and two dinky engines are busy hauling out the lump cars. The Northern Pacific railway is relaying its tracks at the old gravel pit west of Deerwood preparatory to hauling gravel to improve its roadbed. It is rumored that the Cuyuna Northern may be extended to cover the south range from the section thirty mine to a point near

Randall. Drills are in operation in all of this territory.

At the Barrows mine of the M. A. Hanna Co., situated four miles south of Brainerd, the shaft is now down 69 feet. Work has started on a second shaft which will be a drop shaft. The timbers are now on the ground for this work. I. S. Roe is the young, energetic superintendent in charge of the mining operations here. It is rumored that within a year a second mine may be established immediately south of Barrows. The town is growing and an addition has been platted to the north of it.

The Helmer Exploration Co. on Friday set up a diamond drill five miles east of Randall in section 10-41-31. Wilson Bradley and the Oberg Brothers, of Deerwood, have a drill exploring their land in section 19-46-29. Henry Spalding and associates, of Crosby, are about to commence drilling in section 8-46-27.

The Carlson Exploration Co. is drilling in section 17-46-29. Gust Swanson has gone to Aurora and his place as manager has been filled by Supt. Court.

George H. Crosby has bought 160 acres in 17-46-29 from Wilson Bradley, of Deerwood, and it is said may plat another town here. The land lies about six miles west of Crosby. The Carlson Exploration Co. has 3 drills at work in section 17-46-29 and the Cole & McDonald interests have 2 drills near by.

George H. Crosby has leased lot 7

in section 18-46-29 from H. W. Topping, of St. Paul, and will explore it. Mr. Topping is a member of the foundry firm of Parker & Topping, of Brainerd, and is a prominent business man of St. Paul.

George H. Crosby has also leased for exploration purposes the northeast quarter of the northeast quarter of section 18-46-29 from Senator William Washburne, of Minneapolis; Coolidge & Schussler, of Floodwood and others.

### COMMUNICATION

Nov. 11, 1911.

To the General Taxpayers of Brainerd, Minnesota:—

Do you know that you can stop the payment of Ritari Bros. incorrect account, for the paying of 3rd Ave. N. E., so generously allowed by Aldermen Henning, Anderson, Olson, Dieckhaus and Fogelstrom,—under section No. 162 of the city charter which reads as follows:

"No claim against the city on any department thereof, for more than one hundred (\$100.00) dollars shall be paid until ten days after its allowance; within said ten days the city attorney may, and upon demand of ten resident taxpayers, he shall take an appeal to the district court from the act of the council or board allowing such claim?"

No doubt Alderman Henning and the others who allowed the bill in question will not enjoy the opportunity of testifying under oath before the district court just why they took the action they did after the presentation of my emphatic, specific and written recommendation that the final (20 per cent) twenty per cent payment for the paving be refused on account of violation of contract and inferior workmanship. They may not desire to explain under oath just why they refused to allow the special council committee, appointed for that purpose, time in which to meet, consider my report and bring in a written report giving just and reasonable reasons for any recommendations they might see fit to make. Very likely they will be embarrassed to explain why, when a motion for reconsideration was before the council, and I had stated that I had serious doubts as to the correctness of the amount of yardage claimed by contractors, that no action was taken.

The time to stop the improper use of public money is within the ten days allowed by law. Half of this time has now passed with nothing accomplished. Are you satisfied to remain on the fence, grumble about your high taxes, wield the knocker, and be one of the unburied dead, or will you take advantage of the provisions of the law, with the immediate object of stopping payment on

### COUNTY AFFAIRS IN GOOD SHAPE

Public Examiner Andrew E. Fritz, Congratulates Auditor and Co. Board in Recent Letter

### REFERS TO POOR FARM AFFAIRS

Filings in Assessment Books Should Be Completed by Assessors and Boards of Review

"The affairs of the county with few exceptions show excellent management for which we desire to congratulate you," says Public Examiner Andrew E. Fritz in a letter addressed to the Auditor and county board of Crow Wing.

The county auditor and county commissioners have faithfully endeavored to follow the recommendations made by the late Public Examiner Anton Schaeffer, and that they have succeeded is evidenced by the letter from Mr. Fritz which states as follows:

"Office of Public Examiner, St. Paul, Nov. 3, 1911. To the Auditor and County Board, of Crow Wing County, Brainerd, Minnesota. Gentlemen:

We are in receipt of Mr. Johnson's report of his examination of the affairs of your county for the period from Dec. 1, 1910, to the close of business on Oct. 28, 1911, and desire to call your attention to the following matters:

Filings in assessment books should be completed by assessors and boards of review.

Tax lists should be proven as prescribed by this department and the amounts collected by the treasurer should be entered in the tax lists, which is not being done. These amounts should be entered in the columns designating in what settlement the collection is accounted for, thus affording the auditor better facilities for proving tax lists and writing up his tax levy record.

Jurors in justice and municipal

courts are still allowed mileage, which is contrary to provisions of Sec. 142 and 2713, RL '05. This practice should be discontinued as the law allows these jurors only one dollar and no mileage. See op. 513, Atty. Gen. Report for 1910.

We are pleased to note that the overcharges previously reported have been refunded and also that your poor people are being cared for much more economically than heretofore.

Under the terms of your lease of the poor farm, by which the county gets one-half of the crop and pays the board of its poor people, it would seem that the tenant and not the county should pay the telephone rental, and he should be required to do so in future.

All bids for board of inmates

should show the name of the person as well as the time cared for.

With these exceptions the affairs of the county show excellent management for which we desire to congratulate you.

Yours very truly,  
ANDREW E. FRITZ.

Public Examiner.

In a letter addressed to County Attorney W. A. Fleming, Mr. Fritz clears up the telephone matter as follows:

"Inasmuch as this telephone at the poor farm is for the use of the county board and officials, this department removes all objections to the county paying for the service. We were of the opinion that the phone was for the convenience of the lessee of the farm."

Question of Liability of City For Damages Where Person is Injured by Fall Considered

The question of whether or not a city is liable for damages in cases where a person is injured by falling on a sidewalk made slippery by an accumulation of ice or snow is, in certain cases, a close one in the opinion of Judge C. F. Templeton, of the district court at Grand Forks, N. D.

He makes that finding in the case of J. W. Jackson against the city of Grand Forks, in which the city sought a judgment, notwithstanding

Dear Sir:

It gives me great pleasure to recommend your Peerless Steam Washer. As the demonstration which you made at my home has thoroughly convinced me of the extremely fine qualities which your washer has.

It washes colored clothes, as well as the white ones and cleans them to my entire satisfaction, without the least bit of rubbing. Among other things a large rag rug was washed also some painters overalls and childrens colored clothes. They all came out perfectly and looked very nice.

In view of the fact that the washer does such fine work I will order one of them.

# DAKOTA BUSINESS COLLEGE

Every person needs a business education and it costs no more to get it at this great Business and Shorthand Training School, under exact office conditions, than at one of the small questionable ones. The results are, however, very different. 50 D. B. C. pupils went to excellent positions in banks and offices this year—over 400 will do so next year. All Fargo banks and 685 others employ D. B. C. pupils as cashiers, tellers or bookkeepers. No other school offers such endorsement.

Our \$50 course prepares for business life, or for position as clerk or bookkeeper. Our new \$25 course in Commerce and Banking (endorsed by Bankers' Association) supplies cashiers and tellers for the Northwestern banks, and bookkeepers and credit men for the larger concerns. The shorthand course (under an expert reporter) trains court reporters and high grade stenographers. The stenographers for the U. S. District Court, N. D. Supreme Court, 24 Judicial District and the Cass Co. Court are D. B. C. pupils. Can other schools offer this proof of superior training?

The D. B. C. has built a magnificent new building (35,000 square feet of space) is seated with roll top desks, has 60 typewriters, adding machines, billers, money changers, etc. Our pupils deal with each other and with magnificently equipped offices, using aluminum money. Our courses are fascinating and practical. The Northwest has "No other school like the D. B. C."

Next term begins soon. For booklet write:

Clean, dry heat, with no smoke or odor and with no flying ashes or soot—that is what you get with a Perfection Smokeless Oil Heater.

The Perfection is the most reliable and convenient heating device you can find. It is always ready for use. There are no pipes or flues or wires to bother you. You can pick it up and take it wherever extra warmth is wanted.

Every mechanical improvement that experience could suggest was already embodied in the Perfection Heater. This year we have tried to add to its appearance. The drums are finished either in turquoise-blue enamel or plain steel, as you prefer; nickel trimmings; as ornamental as it is indispensable to comfort.

A special automatic device absolutely prevents smoking. All parts easily cleaned. Gallon fuel; lasts nine hours. Cool handle; damper top.

Mr. and Mrs. I. U. White Celebrate Their 34th Wedding Anniversary Last Evening

Mr. and Mrs. I. U. White celebrated their 34th wedding anniversary last evening at their pleasant home at 1005 Main street. The event was made one of great pleasure to them for all their children and their families were present.

A library table, sewing chair and other nice presents were given the happy couple. An appetizing luncheon was served at the close of the evening.

Mr. White is one of the pioneers of the city. Their wedding was solemnized in Brainerd 34 years ago. Rev. Root of the Episcopal church officiating. Brainerd at that time was a small frontier town on the edge of the timber belt and having a population of about 2,000 people.
